

Energy-smart house

This picture shows six ways you can save energy. Place the letter next to the correct description.

- _____ If you're the last person to leave the room, turn off the television.
- _____ Make sure to close the door behind you so the cold or warm air doesn't escape outside.
- _____ A dishwasher uses six gallons less of hot water than washing by hand.
- _____ Compact fluorescent bulbs use 75 percent less energy and last 10 times longer than standard incandescent bulbs.
- _____ One well-placed shade tree can reduce cooling costs by 25 percent.
- _____ Forget the screen saver, let your computer monitor go to sleep or turn it off to save the most energy.
