

**When the power went out,
Katherine lost \$365 worth of groceries**

Katherine typically spends over \$300 in groceries for her family every week.

Last week, the power went out and her groceries spoiled. This was the second time this happened in the past few months.

Now Katherine is making sure it's happened for the last time. She now has peace of mind with an Automatic Standby Power Generator installed and serviced by Thomas Edison Electric. With an Automatic Standby Power Generator, Katherine knows that her power will always be on and she'll never have to worry again about replacing a refrigerator full of groceries.

An Automatic Standby Power Generator Installed and Serviced by Thomas Edison Electric:

- Will automatically kick in when the power goes off
- Will automatically shut off when the power is restored
- Will ensure your heating and cooling systems will remain on
- Your electronics, medical equipment, refrigerator, communication items, computers and tablets will be operating at 100%

Is your home at risk for losing power? Contact us at 902-628-8720 or 902-436-0719. You can also email us at myelectrician@eastlink.ca or schedule your **FREE IN-HOME EVALUATION from our website; thomasedisonelectric.ca**

Be prepared for storm season.

You can have 24/7 protection against power outages with a Generac automatic standby generator.
